The Pow-Wow

1958

The senior class of St. Henry High School is proud and happy to be able to dedicate this first school annual to former Superintendent, Mr. A. J. Collins, who for twenty-seven years of devoted service, guided the destiny of the St. Henry School District.

Superintendent's Message

I wish to express my appreciation to the annual staff, the annual sponsor, and to the senior class for the great amount of time and effort they have expended to publish the 1958 "Pow-Wow."

This appreciation is particularly significant because this annual is the first to have been published in the history of the St. Henry Schools. The fact that this is an entirely new venture should make the results even more gratifying.

I hope that each graduating senior will value the years spent at St. Henry, and will find the education they have received here will serve them both spiritually and physically in the years to come.

Now that you have graduated, do not feel that these years are behind you and should therefore be forgotten. You should let your education be the foundation of your success and aspirations.

The class of '58 wishes to thank Mr. Myron Huelsman, our advisor,
for guiding us through our senior year to its successful conclusion.

Class History

The discovery of the Class of 1958 was an accident. Four years ago, early one morning in September, 1954, the faculty of the St. Henry High School was strolling aimlessly through the corridors, chattering about the just ended vacation and wondering whether there would be any startling changes in their work during the coming year.

Suddenly they caught a glimpse of something new and strange. Just inside the front door, huddled together in mute embarrassment and anxiety, were the members of what became the Class of 1958. To the casual eye, they seemed merely a group of ordinary girls and boys, well dressed, reasonably good looking, and badly frightened. But to the trained eyes of these dauntless and experienced teachers, these strangers seemed distinct, and widely separated individuals, each possessing aptitudes and talents, deficiencies and capabilities decidedly worth finding out.

They were permitted to form an organization of their own, and elected the following officers, all of whom fulfilled their duties well: PRESIDENT, James Dippold; VICE-PRESIDENT, Joe LeFevre; SECRETARY, Janet Schwieterman; TREASURER, Tom Wehrkamp; REPORTER, Ann Rinderle; ADVISOR, Mr. DeBrosse.

During the year, Marjorie Maxwell moved into our community and entered our class. A few months later, just as we were catching on the routine of the school, Bernadette Neitfeld left our class.

At the end of the year a terrible disaster fell on our class. When we returned in the fall, we found that our class had suffered greatly by the loss of Shirley Bertke, Elmer Broering, Paul Clune and Donald Quinter. We now had 62 members.

The elected officers for our Sophomore year were: PRESIDENT, Gerald Dippold; VICE-PRESIDENT, Larry Brunswick; SECRETARY, Richard Schroer; TREASURER, Tom Wehrkamp; ADVISOR, Mr. Brophy. This was a most distinguished body and reflected honor on the entire school. During our Sophomore year, Marjorie Maxwell moved to another town and left our class forever.

At the end of the year we had 3 less members. They were Jerry Evers, Ernest Post, and Ralph Wendel.

In the third year, owing to an old educational custom the Sophomores became Juniors, and their promotion made their sense of importance increase out of all due proportion. Great, indeed, was their sense of scorn for the Freshmen and Sophomores.

As Juniors we had more duties to perform and these were well taken care of by PRESIDENT, Ann Rinderle; VICE-PRESIDENT, Janet Schwieterman; SECRETARY, Jim Dippold; TREASURER, Carol Olding; REPORTER, Virginia Gels, ADVISOR, Mr. Cashman.

One of the high lights of the year was the day we received our class rings. Another great event was the day we presented the three act comedy, "Henpecked Husband," under the direction of Mr. Griffin. A new member of our class was Sharon Karcher. Suzanne Bennett left our class to resume her studies in Dayton, Ohio.

On May 9, 1957, we had the Seniors as our guests at the Junior-Senior Prom. The theme was "Fairylane Romance."

With the gaining of this title of Seniors were: PRESIDENT, James Dippold; VICE-PRESIDENT, Joseph LeFevre; SECRETARY, Mary Ann Dahlinghaus; TREASURER, Janet Schwieterman; REPORTER, Sharon Karcher; ADVISOR, Mr. Huelsman.

We selected Chicago as the site of our class trip which begins on May 21. Graduation exercises will be held on Sunday, May 25.

The salutatorian for this year is Ralph Steinlage, and the valedictorian is Marge Laux.

It may be said that we have erred on the side of restraint in writing this history. So we take this opportunity to say now that in our far from humble opinion the class of 1958 is the most brilliant and attractive of any class known to history and will be always remembered by the faculty of the St. Henry High School and the people of the town as that wonderful class of "1958."

Where there is no last frontier

Within your own fences, under your own two feet, are frontiers enough for you and your children and your children's children.

On every American farm, each year opens new frontiers for achievement. Each step ahead is a frontier crossed. Lowering production costs. Increasing yields. Improving meat or poultry quality. One of the most unlimited of these is building your soil.

When you renew and rebuild your land, you lay the basis for increased yields and better forage for your livestock. Sure, there are new methods to help—terracing, strip cropping, contouring, other means of erosion control.

But crop rotation and the everlasting replacement and improvement of the humus of your soil are the jobs that come first. Today, they're easier with NEW IDEA equipment.

We, too, face new frontiers every year. Ours are the problems of designing specialized machines that will do a better job for you. Machines that will deserve the respect and confidence of the thousands of farmers throughout the country who depend on their investment in NEW IDEA equipment.

For two generations NEW IDEA has been producing manure spreaders designed to do the best possible job in helping farmers to build their soil. The

standards of NEW IDEA engineering and manufacture made this goal possible. That is why farmers use more NEW IDEA spreaders than any other brand.

In 1956, we have new manure spreaders and fertilizer spreaders ready for you. See them at your NEW IDEA dealer's. Or write for new literature.

And chuckle at the fellow who complains that there are no more frontiers in America. Tell him that you've found frontiers he never dreamed about.
